

## Education Insights

50%  
of a teacher's week is spent  
on lesson preparation  
and grading

23%  
of faculty staff cite "course  
material compilation" as among  
the most inefficient processes

Teachers and students touch many processes where they have no choice but to start or end with a printed document. Paper-based document processes are usually time-consuming and error-prone.

**In this context, our wide range of workflow apps that run on any Xerox® VersaLink® or Xerox® AltaLink® Device represents a great opportunity for customers in Education.**

## Ask the right questions!

### For Xerox Summarizer:

- On an average, how much time do you spend reading documents every day?
- What about inserting concise summaries in your email bodies instead of heavy attachments?
- Do you provide a summarization service to students that require special education?

### For Remark Test Grading:

- Do you use – or plan to use – the Remark Test Grading Cloud Service in your establishment?
- On an average, how much time do you spend on grading "bubble tests" that have been completed by your students?
- How long does it take to share these results with your students after they have completed the tests?

### For Blackboard/Moodle

- Do you use – or plan to use – Moodle or Blackboard as a Learning Managing System in your establishment?
- On an average, how much time do you spend updating learning materials every week?
- Do you allow your students to upload completed assignments into Blackboard or Moodle?

### For Xerox® Translate and Print App

- Has your school seen a large influx of limited English proficiency (LEP) students?
- Do you currently employ translation services either from the internet or by a human translator?
- Would it be helpful to provide quick and accurate translations at the point of need such as the front desk in the office?

### SUMMARIZE ANY SOURCE TEXT IN SECONDS.

1. Open the Xerox® Summarizer App.
2. Select how you want to summarize the content: by type, percentage, or domain.
3. Preview the result right at the device, then print and/or email the result.

### LESS TIME GRADING, MORE TIME TEACHING.

1. Open the Xerox® Connect App for Remark Test Grading.
2. Print multiple answer sheets and distribute.
3. Scan completed answer sheets for instant results and report summaries.

### SHARE COURSE MATERIALS IN A SPLIT SECOND.

1. Open the Xerox® Connect App for Blackboard or Moodle.
2. Log in to your account and browse destination folders.
3. Scan hardcopy materials into the desired folders. And share them online.

### ELIMINATE LANGUAGE BARRIERS. INSTANTLY.

1. Open the Xerox® Translate and Print App.
2. Select one of the 44 target languages.
3. Simply scan the document and receive a translation print.

Don't forget! The Google Chrome™ Store now carries the Xerox® Print Portal App that integrates seamlessly with Chrome OS™. This enables a traditional "PC Print Driver" experience for Chromebook users in the classroom!

**All these Apps can be demonstrated - easily and remotely.**
